

Signetdata.com: Breed Benchmark

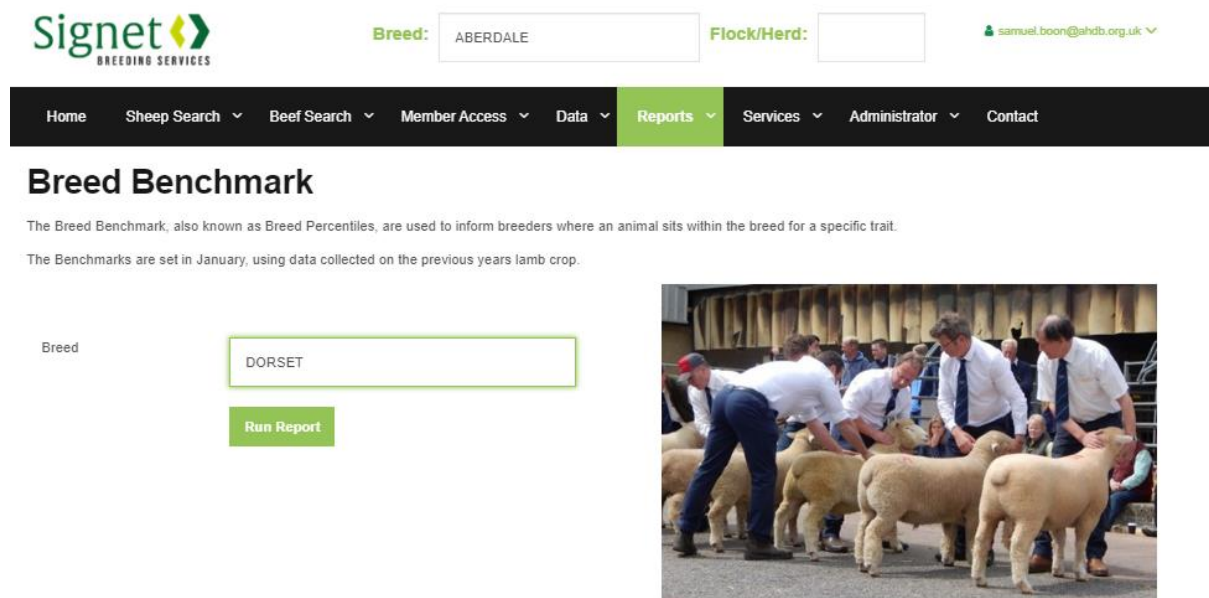

Signet clients can access a range of reporting tools at www.signetdata.com. To get started clients should log into their account by clicking “Member Access” (top right).

Breed Benchmark

1). To access the Breed Benchmark go to “Reports” and select the sub-menu under “Flock Report”, entitled “Breed Benchmark”

2). Select the breed of interest and press “Run Report”

3. The data will be dropped into a table – giving the user to download the information into a csv file, excel file or a pdf.

What creates the Breed Benchmark?

The Breed Benchmark represents the spread of Estimated Breeding Values within last year's lamb crop, based on the last BLUP run of the previous year.

In the case of Hampshire Down and Suffolk, we get a full download of Society data at the end of the season – so this data is included within the Benchmark as well.
